

# Emerson's Remanufacturing Services for Westinghouse Hagan Fan/Damper Actuators

Emerson Process Management now remanufactures actuators and power positioners to factory specifications including torque, thrust and repeatability. These drives look and perform like new. Emerson's Rosemount Analytical is the original equipment manufacturer and can extend the life of your investment at a cost significantly below a new replacement unit.

## Services include:

- Receipt inspection
- Complete teardown
- Replace critical parts and tubing
- Full factory check-out to new manufacturing specifications.
- Repainting and replating

## Critical-path service to meet your outage schedule

- Pre-outage assessment of the drives
- Parts ordering and inventory
- Project scheduling and management
- Expedited works and shipping

## Most outage schedules can be accommodated

Emerson recommends customers initiate this service several weeks before outage.

In the event Emerson determines an actuator cannot be remanufactured, we will offer a discount on a new replacement actuator.

*Remanufacturing drives include new piston rods, seals, gaskets, piston cups, springs and tubing.*

# Emerson's Remanufacturing Services for Westinghouse Hagan Fan/Damper Actuators

## Emerson remanufactures the following models:

*2 1/2 x 5 Positioner with EPT –  
Electronic Position Transmitter*

### Thrust type:

- 2 1/2 x 5 Thrust
- 4 x 5 Thrust
- 5 x 10 Thrust
- 5 x 20 Thrust

### Torque type:

- 2 1/2 x 5 Torque
- 4 x 5 Torque
- 6 x 10 Torque
- 8 x 14 Torque
- PowerVUE 4 x 5
- PowerVUE 6 x 10
- PowerVUE 8 x 14
- PowerVUE 10 x 14

*PowerVUE 10 x 14*

## Upgrade your positioner with the Fisher® FieldVUE™ DVC 6200 featuring:

- True digital positioning
- .5% position repeatability
- HART position transmitter standard
- Optional FieldVUE diagnostics
- Optional Stainless Steel Covers

*Fisher FieldVUE DVC6200  
Digital Valve Controller*
